**This is to certify that the article**

Microscopic heterodyne interferometry for determination  
of electron density in high-pressure microplasma

**by Keiichiro Urabe, Hitoshi Muneoka, Sven Stauss and Kazuo Terashima**

has been selected by the Editors of *Plasma Sources Science and Technology*  
for inclusion in the exclusive 'Highlights of 2014' collection. Papers are chosen to represent  
the excellence and breadth of the work published in 2014.

**W G Graham**  
Editor-in-Chief
